4 FIRST AID MEASURES

Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If respiratory symptoms persist, get medical advice / attention.
Ingestion:	Rinse mouth, then drink a glass of water. Do not induce vomiting. Get medical advice/attention if large amounts were swallowed or if you feel unwell. Never give anything by mouth to an unconscious person.
Skin contact:	Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice / attention.
Eye contact:	Immediately flush eyes with running water for several minutes, holding eyelids open and occasionally lifting the upper and lower lids. Remove contact lenses if present and easy to do. Continue rinsing for at least 15 minutes. If eye irritation persists, get medical advice/attention.
Advice to Doctor:	Treat symptomatically.

5 FIRE FIGHTING MEASURES

General Measures:	If safe to do so, move undamaged containers from fire area. Cool containers with water spray until well after fire is out.

Suitable extinguishing media:	Use dry chemical, Carbon dioxide (CO ₂), foam or water spray for extinction.
Fire and Explosion Hazard:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
Hazardous Combustion Products:	Fire may produce irritating, toxic and/or corrosive fumes, including Carbon oxides.
Special Fire Fighting Instructions:	Contain runoff from fire control or dilution water - Runoff may pollute waterways.
Personal Protective Equipment:	Wear self-contained breathing apparatus (SCBA) and chemical splash suit. SCBA and structural firefighter's uniform may provide limited protection.
Flash Point:	~ 175 °C
Auto Ignition Temperature:	250 °C

6 ACCIDENTAL RELEASE MEASURES

General Response Procedure

Ensure adequate ventilation. ELIMINATE all ignition sources. Do not touch or walk through spilled material. Avoid generating dust. Avoid breathing dust and contact with eyes, skin and clothing.

Clean Up Procedures

Collect material (sweep up and shovel) and keep in suitable, closed containers for disposal (see SECTION 13).

TRULUX SAFETY DATA SHEET

Provides critical information on hazardous substances or mixtures.

Containment

Stop leak if safe to do so – Prevent entry into waterways, drains or confined areas. Prevent dust cloud.

Environmental Precautionary Measures

Prevent entry into drains and waterways.

Evacuation Criteria

Spill or leak area should be isolated immediately. Keep unauthorised personnel away.

7 HANDLING AND STORAGE

Handling

Safety showers and eyewash facilities should be provided within the immediate work area for emergency use. Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Minimise dust generation and accumulation. Avoid breathing dust and contact with eyes, skin and clothing. Do not ingest. Use personal protective equipment as required (see SECTION 8). Avoid extremes of temperature and sources of ignition - No smoking.

Storage

Store in a cool, dry and well-ventilated place, out of direct sunlight. Keep container tightly closed. Protect from moisture. Keep away from heat and sources of ignition - No smoking. Keep away from incompatible materials.

Container

Keep in the original container or suitable packaging (Stainless steel preferred).

No specific exposure standards are available for this product. For dusts from solid substances without specific occupational exposure standards:

- Safe Work Australia Exposure Standard (Nuisance dusts): 8 hr TWA = 10 mg/m³ (measured as inhalable dust).
- New Zealand WES (Particulates not otherwise classified): TWA = 10 mg/m³; TWA = 3 mg/m³ (respirable dust).

Engineering Measures

A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area.

Personal Protection Equipment

Respiratory Protection

In case of inadequate ventilation, wear respiratory protection. Recommended: Dust mask/particulate filter respirator (refer to AS/NZS 1715 & 1716).

Eye / Face Protection

Wear appropriate eye protection to avoid eye contact. Recommended: Chemical goggles or glasses with side-shields.

Hand Protection

Handle with gloves. Recommended: Chemical-resistant gloves, e.g. Nitrile rubber.

Skin and Body Protection

Wear appropriate personal protective clothing to avoid skin contact. Recommended: The type of protective equipment must be selected according to the concentration and amount of the hazardous substance(s) at the specific workplace.

Work Hygienic Practices

Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Take off contaminated clothing and wash before reuse.
